**25 years
on the market**

P.P.U.H. "Inter-Castor" Sp. z o.o. has been operating on the steel structures market since 1989. The origins of the company date back to 1945, which totals more than half a century of tradition. The company has gained vast experience in the field of production of a wide range of steel structures, in particular metal and glass heat treatment process line elements, structures for engineering industry and many other implementations executed upon individual order, according to the customer's documentation and requirements.

The company has at its disposal an area of 8ha, from which 10 000m² is production area.

The company's staff is 50 highly-qualified employees, with significant experience, practice and knowledge.

The strategic resources of the company are:

- welders with licenses for 111, 135, 136 and 141 methods,
- engineers and supervision personnel with EWE, IWE, VT1 and VT2 licenses.

At Inter-Castor we make every effort to ensure our customers are satisfied with our services and the quality of the completed orders.

This is proven by the Quality Management System, consistent with the *ISO9001:2008* international standard.

The implemented projects meet the quality requirements pertaining to produce of steel structures according to *EN-3834-2* standard.

The company is also classified in the 1st group of small plants according to *PN-M 69009* standard.

The continual developmental needs of the company have resulted in Inter-Castor's obtaining of qualified welding technology according to PN-EN ISO 15614-1 for nickel alloy sheets Inconel 600 with MIG (131) and MMA (111) methods.

The company has at its disposal a well-equipped machine park and rich technical facilities, fully oriented at production and treatment of steel products.

The experience and knowledge allow implementation of sophisticated projects for even the most demanding customers.

PRODUCTION OF STEEL STRUCTURES OF VARIOUS APPLICATION

STRUCTURES OF MACHINES AND INDUSTRIAL DEVICES

- Elements of furnaces for heat treatment of metal
- housings
- heating chambers
- retorts
- turbines
- racks/ baskets

ELEMENTS OF PROCESS LINES

- support structures
- platforms
- landings
- stairs
- barriers

ELEMENTS OF PROCESS LINES

STRUCTURES FOR ENGINEERING INDUSTRY

- structures of industrial halls

CASTOR SERIES RECYCLING CRUSHERS

AUTOMOTIVE INDUSTRY

- transport pallets

and plenty more completion made upon individual order of the customer.

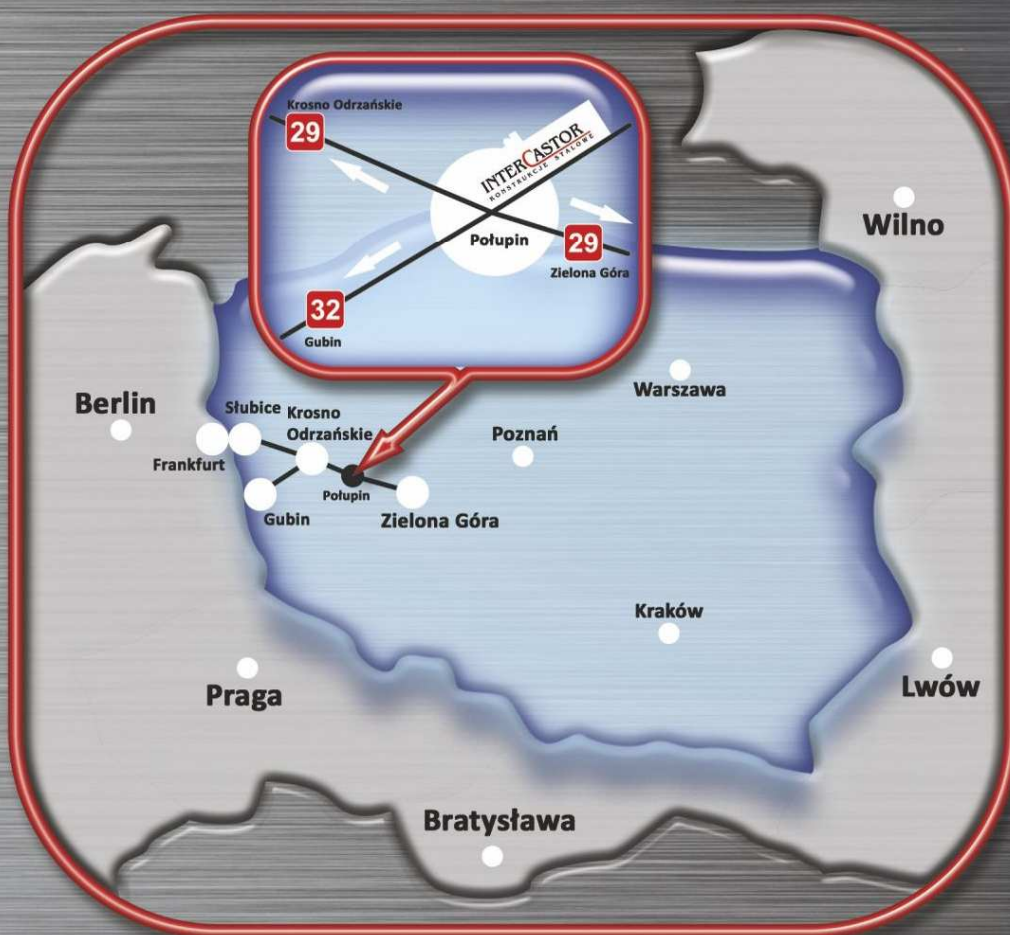

COMPLEX METAL TREATMENT SERVICES

- plasma and gas cutting
- bending and winding of sheets and sections
- lathing services
- milling services
- sheet corrugated services
- and plenty more

SKIPS AND HOOK CONTAINERS VIP AND ZUD DUMP CONTAINERS
